

Satya Prakash

Full Stack Developer (MERN Stack)

satyaprakash121122@gmail.com • +91-8678002242 • Bangalore, India • [linkedin.com/in/satya-prakash-542611211](#) • [github.com/Satya889900](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on industry experience building scalable, production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Delivered real-world systems including a complete ISP management platform and a service-based marketplace featuring Razorpay payment integration, JWT-secured authentication, Firebase FCM real-time notifications, and CI/CD-enabled cloud deployments using Docker, Render, and Vercel. Strong communicator with a track record of collaborating across frontend and mobile teams to ship high-quality features on schedule. Passionate about clean code, system design, and solving complex engineering challenges.

WORK EXPERIENCE

Executive Full Stack Developer Jan 2026 – Present
Kods Technologies Pvt. Ltd • Bangalore, India

- Developed and maintained 5+ full-stack MERN applications for real-world client projects, reducing delivery time by 25% through reusable component architecture.
- Designed and implemented RESTful APIs for authentication, payment processing, and user management, supporting 1,000+ monthly active users.
- Integrated Razorpay payment gateway processing 500+ monthly transactions with 0 payment failures and automated subscription renewals.
- Implemented Firebase Cloud Messaging (FCM) delivering real-time push notifications to 800+ web and mobile users.
- Built advanced pagination, filtering, and search features reducing average API response time by 40%.
- Deployed applications using Docker containers on Render and Vercel with CI/CD pipelines, achieving 99.9% uptime.
- Partnered with 3 frontend and Flutter developers on API design and integration, reducing cross-team bugs by 30%.

Software Engineer Intern Sep 2025 – Dec 2025
Kods Technologies Pvt. Ltd • Bangalore, India

- Built 10+ backend APIs using Node.js and Express.js for core product features shipped to production.
- Implemented JWT-based authentication system with role-based access control (RBAC), securing 15+ API endpoints.
- Designed and managed MongoDB schemas with optimized indexing, improving query speed by 35%.
- Collaborated within an Agile/Scrum team of 6, delivering 100% of sprint tasks on schedule across 4 sprints.

PROJECTS

Activeline – ISP Management System
MERN Stack • Razorpay • Firebase FCM • Render

- Architected a full-stack ISP management system with admin panel and user app supporting 200+ subscribers, covering billing, plan management, and data usage tracking.
- Integrated Razorpay processing 300+ monthly payments and Firebase FCM delivering notifications to 200+ users.
- Implemented secure JWT authentication and optimized pagination reducing data load time by 45%; deployed via Docker on Render.

JSTcliq – Service & Product Platform
React.js • Node.js • MongoDB • Vercel • Live

- Developed a full-stack marketplace for 500+ users with authentication, order management, and profile features, increasing session time by 30%.
- Designed fully responsive UI across 10+ product and service category pages, achieving consistent cross-device experience.
- Built 20+ REST APIs with search, filtering, and pagination; deployed with CI/CD pipeline on Vercel and Render.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), C#
Frontend	React.js, HTML5, CSS3
Backend	Node.js, Express.js, Spring Boot, REST APIs
Auth & RT	JWT Authentication, Socket.io, Firebase FCM
Database	MongoDB
Payments	Razorpay Payment Gateway
DevOps	CI/CD, Render, Vercel, Git, GitHub
Tools	Postman, Prompt Engineering

EDUCATION

B.Tech – Computer Science & Engineering
Future Institute of Engineering & Management
Sonarpur, Kolkata, West Bengal
2020 – 2024 • CGPA: 76.5 / 10.0

Higher Secondary (Science / 10+2)
Vishunpur High School
Vishunpur, Ranipur, Nalanda, Bihar
2018 – 2020

CERTIFICATIONS

5-Star Java – HackerRank
Achieved 5-Star Java rating on HackerRank and ranked among the top 5,000 participants in CodeChef competitive programming contests (2020).
